

High Precision Slitting

LINES

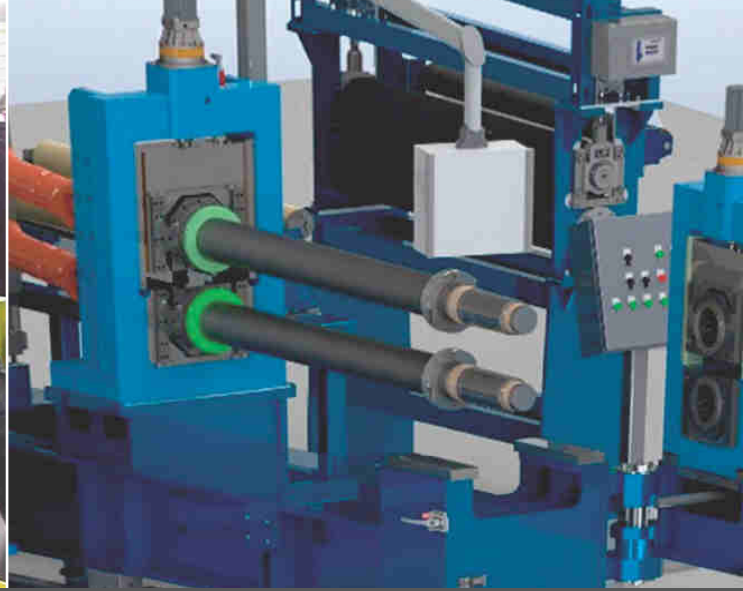

Integrated
SHAFT BENDING technology
for high quality strip

In-house design and manufacturing, together with
machine-tool technology guarantees world class
results, and therefore,

Ultra precision slitting !

High Precision Slitting Lines

Exclusive ISB* Technology from REDEX

* *Integrated Shaft Bending*

Features

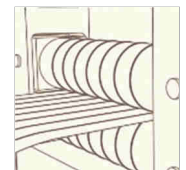

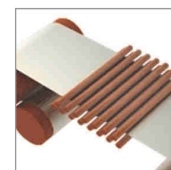

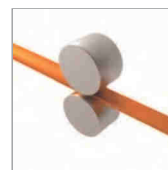

- > Modern design for high added value, including machine tool class bearings
- > Fully integrated PLC control with MOSIP® recipe management system.
- > Low maintenance components

Strip width	mm	700 to 2800
Line speed	m/min	up to 500
Strip thickness	mm	from 0.1 to 3
Strip material	-	soft and hard alloys

Better Quality & Productivity

- > Shafts counter bending for perfect slitting
- > Anti scratch tensioning for fragile surface
- > High productivity with automatic coil handling

Worldwide service and support, with over 60 years of experience gives guaranteed performance year after year

We also supply Strip & Wire Rolling
Strip Leveling
Strip Slitting
